

WAR AGAINST IRAQ?

We, the undersigned Montana citizens, express our opposition to war with Iraq. We are concerned that the case for war has not been made by the Bush administration and that sending American soldiers into harm's way in Iraq is not justified. We are also concerned about the likelihood of high casualties among the civilian population of Iraq, and the possibility of increased terrorism as the result of our actions. We urge this administration, and our congressional delegation, to pursue diplomatic, non-military means to resolve our disputes with Iraq.
